

# United World Halal Development helps you build business in harmony

Reinforcing best business practices that  
guarantee environmental welfare.

**” We strive to stand united through Halal which enhances our living in this world.**

**We believe that shared responsibilities help to achieve the motive of `World Halal Day & can make the basic objective successful.**

Many countries & organizations have recognized the need to launch initiatives to support the growth of Halal. To create a world where people of different faith and races live in harmony; A world where healthy food is available to everyone by bridging the imbalance of the excess food & deficit: A world that stands united against hunger & poverty. To preserve our environment and natural resources and promote organically produced healthy food.
